Liquid Emotion

Based in New York and Paris, Nouveau Paris has developed revolutionary layer-capable (LC) fragrances to meet the growing national demand of fragrance products. The Nouveau Paris product lines—Dumann (for him) and Les Fleurs (for her)—are the hottest trend in the market. Guaranteed in quality, the components of Nouveau Paris are imported overseas from France, with phase completion in

the United States. Formulated to match distinct female personalities such as strong and feminine, refined and self-assured, and surprising and mysterious, Les Fleurs by Nouveau Paris is bound to reach the hands of the consumers with various personalities. It is the way to be on a complete, consistent path to being ahead of the trend, no matter the era, for Les Fleurs is the latest contemporary classic, exposing liquid emotion.

Furthermore, may it also be noted that before the launch of Nouveau Paris, men's fragrances lacked the LC feature. However now, more than ever may men layer their colognes using one dominant cologne, Azure, as the base of the four in the Dumann collection, to create new scents to match their personality.

Available at Select Dillard's.
